Improving Office of Clerk of Corporation Court.

NEGROES ASSAULT MERCHANT

Fruit Dealer Beaten Over Head, but His Stock Is Not Molested—Police Commissioners to Review Sentence Imposed by Mayor on Member of Force—Elk Lodge in Session.

WASHINGTON HERALD BUREAU, (Bell Telephone) 53 King Street.

Alexandria, Va., March 23.—The preliminary work in improving the office of the clerk of the Corporation Court was begun to-day, when Constructor Samuel Devaughn commenced removing the butcher's stand from the east end of the market wing.

The city council some time ago appropriated \$5,000 for the improvements. Owing to the fact that a butcher had a lease on the stall located in the east wing of the market, the work is said to have been retarded.

According to the plans there will be a steel cage in the office, which will be known as a record room. The appointments of the office are to be of modern pattern. The office will be located on the ground floor instead of the second, as it now is.

Emanuel Travers, who conducts a fruit stand at the upper end of King street, was attacked in his store by two negroes late this evening, and severely beaten over the head.

The men fled without any booty. Travers was taken to the Alexandria Hospital.

Who will be the next mayor of Alexandria? Up to the present time there are no avowed candidates for the office, although there are several in the "woods" who are sending out "feelers" and awaiting developments. Mayor Paff has up to the present time resolutely refused to state whether or not he will again enter the arena.

It was learned to-day that ex-Mayor E. B. Dowdham does not expect to enter the field. Hubert Snowden, president of the city council and editor of the Alexandria Gazette, and J. Y. Williams, also a member of the city council, are probable candidates.

George Jones, negro, was arrested to-night by Policemen Talbot and Garvey on a warrant sworn out by Marden Nelson, a negro woman. She charges Jones with entering her cook shop on the wharf and assaulting her, and also robbing her of \$2. The woman made complaint to the police this morning. Jones will be given a preliminary hearing in the Police Court to-morrow morning.

At a meeting of the Young Men's Senate which will be held to-morrow night in the Young People's Building the following resolution will be discussed: "Resolved, That only such gas as is used at the armory of the Alexandria Light Infantry by the company or its members while the same is in use by the militia for military purpose, should be furnished by the city without charge."

Alexandria Lodge of Elks met to-night at its hall. A new constitution and by-laws were adopted.

In the Police Court to-day a fine of \$30 each was imposed on Isalah Taylor and Gus Marshall, both negroes, charged with engaging in a cutting affray late Saturday night.

A special meeting of the board of police commissioners will be held to-morrow night to review the action of Mayor Paff.

SALOON MEN TO FIGHT LAW

Will Keep Places in Richmond Open After Licenses Expire.

Cases to Be Taken to the Supreme Court to Test Constitutionality of Local Act.

Special to The Washington Herald. Richmond, Va., March 23.—It was definitely learned to-day that liquor dealers who have been refused license under the new local law restricting the number of saloons in the city to 150, will keep their places open after the expiration of their present license, which will be on May 1, in order that a test case can be made of the constitutionality of the law. The case will be taken to the Supreme Court.

The names of all the dealers who are interested in the project could not be ascertained, but it is said that it embraces practically all of those whom the restricted number of saloons allowed will put out of business.

GIRL ACCUSES POLITICIAN.

Farmer's Young Daughter Alleged Victim of Attack.

Special to The Washington Herald. Hagerstown, Md., March 23.—Howard Waters, a young married man of Pinesburg, and well-known as a politician, was arrested this morning in that place, by Sheriff G. W. Earnshaw, and committed to jail without bail for the action of the grand jury, on the charge of assaulting Martha Hoffman, the fifteen-year-old daughter of Joseph Hoffman, a farmer.

Waters was arrested Saturday evening and released on \$1,000 bond, but after learning other allegations in the case, State's Attorney Armstrong decided it was not bailably, and Waters was rearrested. His father, Henry Waters, had furnished bond for his son.

The crime, it is alleged, was committed at the girl's home on March 3, while the girl and her twin sister were alone. Waters stoutly denies his guilt.

DESCRIBES HER ASSAULT.

But Negro Who Attacked Mrs. Pugh Made His Escape.

Special to The Washington Herald. Winchester, Va., March 23.—Dazed by the attempt of an unknown negro to attack her while nursing a babe two months old, Mrs. Ashby Pugh, wife of the caretaker of Jordan White Sulphur Springs, near Winchester, was able to give only a rambling description of her assailant up to this evening, and now that several days have elapsed since the attack occurred, Sheriff Purcell has little hope of apprehending the negro.

All that Mrs. Pugh remembers concerning her description is that he was dark brown and wore no collar or necktie. No negro resident of Jordan Springs neighborhood is missing so far, but close watch is being kept by deputy sheriffs and the Winchester police.

The body of Miss Annie Kahn, daughter of William Kahn, of Clarke County, who died at Staunton Hospital this morning, arrived here to-night for burial in the Catholic Cemetery. She leaves her parents, seven brothers, and three sisters.

Gen. Kline was sixty-eight years old. He was born in Pennsylvania and was commissioned a lieutenant in the Sixteenth United States Infantry in September, 1881. His record during the Civil War was excellent. At the battle of Shiloh his gallantry was such that it won for him a promotion to captain. He was then assigned to the regulars, and on the day after the outbreak of the Spanish war he was placed on the retired list at his own request.

Lexington, Va., March 23.—For the first time a Lexington audience to-day heard William Jennings Bryan, who delivered an address this afternoon on "The Ideal Average Man." The address was given under the auspices of the Daughters of the Confederacy of Lexington. Fully 1,000 persons were in the skating rink, where the address was delivered. Frank T. Glasgow introduced the distinguished Nebraskan.

LEAVES HALE PROSECUTION.

Special to The Washington Herald.

Bristol, Va., March 23.—Because he does not think there is enough evidence to warrant a conviction, Robert Burrow, a prominent criminal lawyer, has created a surprise by retiring from the prosecution in the case of Ack Hale, charged with the murder of his sweetheart, Lillie Davis, in this city, on the night of March 2, 1907. Burrow made the principal speech in the former trial, when eight jurors held out for hanging, three for life imprisonment, and one for acquittal.

The case will come up at the May term of the Circuit Court at Blountville.

ST. REGIS, NEW YORK

A Hotel Which Offers a New Phase of Living.

ITS INCREASING POPULARITY

There are numerous hotels at home and abroad where one may purchase magnificence at so much a day, and the gaping multitude and the obtrusive new rich go to see and be seen. Hotel St. Regis, New York, belongs to an entirely different class. Within its portals, whether one engages a modest room or a suite, one is given comfort, refined surroundings, and restful privacy equal or superior to that of the most perfectly appointed individual home. Comfort is the keynote of the St. Regis, and in no instance has this most important requisite been sacrificed, and nowhere is vulgar display in evidence.

If you seek the ultimate of homelike satisfaction when away from home, and consider the cost, if so, banish from your thoughts the silly stories of shallow-brained space writers, who, without any knowledge of the facts, have described this hotel as a palace for millionaires only. A brief sojourn at the St. Regis will convince you of the utter falsity of these reports, and you will find there the best of the world has to offer in the realm of hospitality at reasonable expense.

In its restaurant, famous as it has become, the prices, which are plainly printed on all menu cards, are the same as those of first-class hotels generally, while the room charges are equally moderate. Large, elegantly furnished rooms may be had for \$4 a day, or the same with private bath for \$5 (for two people), or a parlor, bedroom, and bath for \$12.

DISPENSARY HAS BIG TRADE.

Virginia Town Declines to Co-operate with "Dry" Bristol.

Special to The Washington Herald. Bristol, Va., March 23.—The Abingdon dispensary is doing a tremendous business since Bristol abolished saloons, and is making profits of about \$50,000 a year.

The temperance people are indignant over the failure of the Virginia legislature to pass a law under which it would be possible to abolish the dispensary, as they claim it is robbing them of the fruits of their victory in Bristol. It is only thirteen miles from Bristol. As it was promised, when Bristol went dry, that Abingdon would also soon abolish the dispensary, but the people are unwilling to part with the prolific source of revenue, and instructed their representative in the legislature, Alex. Stuart, to oppose any measure aimed at it.

SMITH FOR SENATOR

Nominated at Annapolis to Succeed Whyte.

MAY BE REFUSED THE SEAT

United States Senate Expected to Refuse to Recognize Credentials on Ground of Unconstitutional Election, in Which Event He Will Be Appointed by Gov. Crothers.

Special to The Washington Herald. Annapolis, Md., March 23.—Without any opposition whatever, ex-Gov. John Walter Smith was nominated to fill out the unexpired term of United States Senator William Pinkney Whyte, by the Democratic members of the legislature in caucus to-night. There was some talk of nominating ex-Congressman Joshua W. Miles for the vacancy, but shortly before the caucus Mr. Miles declined to allow his name to be presented.

By thus nominating ex-Gov. Smith, the legislature practically defied the United States Senate, which has virtually decided that it will refuse to recognize Smith's credentials, on the ground that his election is unconstitutional, because the law requires that the election of a Senator shall be effected on the second Tuesday before the close of a session of a legislature.

Crothers Will Appoint.

If the Federal Senate rejects Smith, then Gov. Crothers will formally appoint him to the vacancy, and should the Senate still decline to seat him, then Maryland will have to rest content without its second representative in the Senate until March 4, 1909, as Gov. Crothers is emphatically opposed to calling an extra session for the election. On March 4 next ex-Gov. Smith will take his seat in the Senate, having been elected by the present legislature for the long term of six years.

Good Roads Bill Passed.

The Senate to-night unanimously passed the "good roads" bill, which authorizes the expenditure of \$5,000,000 for the building of State highways. The bill has previously passed the house, but requires its sanction on certain features affecting the compromise. It will then be ready for the governor's signature.

The governor has already expressed his approval of the measure.

DEMOCRATS WIN MAYORALTY.

Hammond Victorious After Spirited Contest at Hagerstown.

Special to The Washington Herald. Hagerstown, Md., March 23.—William L. Hammond, Democrat, was to-day elected mayor of Hagerstown, by a majority of 135 over Ernest W. Miller, the Republican nominee. In the second ward Elias Cost, Republican, defeated City Councilman William H. Startzman, Democrat, by 35. In the fourth ward J. Benton Hoover, Democrat, defeated Lewis E. Turner, Republican, by 115. As a result of to-day's election the city for the next two years will have a Democratic mayor and Republican council, two of the holdover councilmen being Republicans.

He lost his balance when the train started and the wheels of six of the cars passed over him. He was sixty-five years old, and a veteran of the civil war. His wife and two children survive.

Lonely for Wife, Killed Himself.

Baltimore, March 23.—Despondent because his wife had left him, George W. Zwicker, a saloonkeeper, 721 South Milton street, early this morning committed suicide by inhaling gas. About a year ago, Mrs. Zwicker left her husband. Last night Zwicker treated a group of his customers to drinks, saying, "I am lonely now, boys, stay with me a while."

Bismarck at Versailles

HOW many living men can squarely stand up and honestly compare themselves as the equal or superior (in any way whatsoever) to the great Iron Chancellor who made Goethe's dream of Germanic unity a realistic drama of "iron and of blood?" How many dare declare "I have greater brain power than he"—"I have a stronger body"—"I am healthier"—"I have a saner knowledge"—"I am more successful" or "I have more force of character?"

Bismarck, during his marvelous career, outwitted the most celebrated statesmen of his time; overthrew and conquered three armed nations, and ruled over the empire he created with enlightened and practical wisdom for nearly half a century, dying at the ripe old age of 89, famous throughout the world as the "Greatest of the Germans."

Now, upon what nutriment was this colossus fed that he grew so mighty; what put the iron into his blood? This we know—that like all Germans he believed in good eating and drinking, hence the juices of the malt and hops were never absent from his table.

Authority—any biography of Bismarck.

BIG RAIL MILLS START UP.

Work for 800 Men at Sparrows Point Steel Plant.

Baltimore, March 23.—The big rail mills of the Maryland Steel Company, at Sparrows Point, resumed operations this morning after lying idle for more than a month. An additional blast furnace was also placed in operation, to-day, and in the two departments about 800 men returned to work. There is at present enough work in sight to keep the steel mills in constant operation for the next three or four weeks. It is hoped that by the time the work on hand has been completed more orders will be placed.

The additional blast furnace placed in operation will make the second now running at Sparrows Point, one having been kept going during the winter. About 300 coke ovens, or about one-half of the number at the Point, are also in operation at present.

WOULD BRING ROY BACK.

France Asked to Surrender Man Charged with Murder.

The United States government has made a request of France for the extradition of Paul E. Roy, under arrest in Paris for the murder of his brother-in-law, George Carkins, in New Hampshire, several months ago.

A warrant has been signed by President Roosevelt, authorizing County Sheriff Robert Scott, of Exeter, N. H., to arrest and bring Roy back from France for trial.

ECKINGTON CITIZENS MEET

Declare in Favor of Fire Inspection of the Schools.

Commissioners to Be Asked to Establish Truck House in the District. Some New Members.

That private as well as public schools should be inspected by fire department officials, was decided at a meeting of the North Capitol and Eckington Citizens' Association in St. Martin's Hall, North Capitol and T streets, last night.

It was argued that many private schools in the District need improvement in fire extinguishing apparatus, fire escapes, exits, and fireproof facilities, and it was decided that the matter should be referred to the committee on schools. Complaint was also made against the custom in some schools of having storm-doors out of a direct line of exit. In order to allow the quickest and safest means of egress to panic-stricken children in case of fire, it was decided that the committee on schools should take under consideration plans for having such dangers remedied, with special instructions to look into the arrangements of the storm-doors and vestibules of the Emory School Building.

The vicinity of Eckington is in need of a truck house was argued, and it was voted that the secretary should be instructed to ask the Commissioners to make a special request to the Committee on Appropriations of the Senate, that either an item be included in the District estimates, or that a special bill be introduced, having in view the establishment of a new truck house in Eckington.

Dr. E. D. Thompson, who presided, complained against the custom in some public schools of prohibiting scholars from eating their lunches in the building. This, he said, made it necessary that some children must go fifteen or thirty squares to get their lunches at home, and hurry back to school.

On motion of Mr. Blau, it was decided the association should make some efforts to have Keating avenue improved. Request will be made to have repairs made

in the pavement of North Capitol street, New York avenue, and Quincy street. Dr. F. Barnes, postmaster of Washington, as a member of the Chamber of Commerce, and the North Capitol and Eckington Citizens' Association, announced an amendment had been made to the constitution of the Chamber of Commerce, whereby it will be permissible for any citizens' association, having five members in the Chamber of Commerce, to be represented officially by those five men as a general committee. Mr. Barnes said he was desirous of having his association take advantage of the new ruling. Four new members were admitted to the association. They are: J. Richard Young, David F. Grady, Frank Linton, and G. H. Parks.

ECZEMA ONLY SKIN DEEP.

Local Cure of Discovered Surface Now Recognized as Proper Treatment.

In gathering data for an address before the Pathological Club, Dr. D. D. Dennis, the skin specialist of Chicago, prepared a table of results on microscopical blood examinations of 468 sufferers from skin diseases. These tests were from the blood of persons who had called at his office within a period of two years. Less than 10 percent of all these cases showed anything at all the matter with the blood, and in not a single instance did the patients present trace the slightest connection between the skin affection and the blood humors.

This personal experience furnished the Chicago physician with the basis for a brilliant exposition of his contention that Eczema, psoriasis, salt rheum, barber's itch, and other skin diseases are first and last diseases of the skin and have nothing to do with the blood. At the conclusion of his paper, Dr. Dennis was congratulated on his demonstration by the prominent medical men present.

For several years Dr. Dennis has allowed a private company to manufacture and sell his celebrated compound of glycerine, salicylic acid, and other ingredients, known as D. D. D. Prescription, and it was particularly gratifying to him that other first-class physicians, free from prejudice and jealousy, should recommend the D. D. D. Prescription to all skin sufferers.

It is simply wonderful—the instant relief—the complete taking away of the itch the very moment this oil of wintergreen is applied to the skin. We know, we vouch for it! For sale and recommended in Washington by H. Evans, 324 F street northwest. Just try it. We recommend D. D. D. Prescription especially when used with D. D. D. Soap.
